

The Technology of Possibility

Complete Card Management Solutions

Education Cards

Payne Security has **over 30 years experience** within the **ID card market**, and it is with this wealth of experience that they provide a range of card solutions to suit your educational needs.

We understand that Schools, Colleges and Universities have different needs when it comes to the issuing of cards for staff and students. From visual identification to campus vending and access control, to the issuance of annual bulk or small lot requirements.

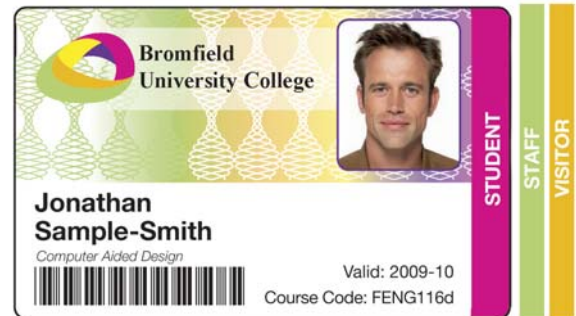

Many establishments face difficulties managing the card scheme internally, such as photography and detail capture, and the time and resources needed. Easing collection of cardholder details, including photographs using our **IDPro7 software** and the ability to incorporate any of the current card technologies, along with offering secure print features, Payne Security can provide you with cards that are **more secure, durable and functional**.

Payne Security not only provide cards using its unique digital print facilities, but can also offer a complete fulfilment service, mailing cards directly to your students and staff or to a central location.

As a leading supplier of in-house ID card printers and utilising our sophisticated IDPro7 software, we can also provide you with an on-site card print and issuing system that suits all your ID card requirements.

Payne Security gives you the advantages of:

- Short to medium print runs - it's our forte!
- Secure print features - guilloche, UV print, microtext and optically variable devices
- All print encapsulated under top laminate - more durable and secure card
- Personalisation and Photo ID at time of print - no additional process
- Multiple designs printed simultaneously
- Quick turn-around times - days not weeks
- All card technologies - magnetic stripe, barcode, RFID (contactless), Smart (chip)
- Braille - meeting the DDA legislation
- Complete card fulfilment service
- Mailing cards direct to your student or facility
- In-house card issuance solutions options
- A multifunctional tool for your staff and students

Whatever your ID card scheme needs are, Payne Security has the solution to match.

ID Cards

The need for ID cards within educational establishments has become increasingly crucial. ID cards assist the identification of staff, students and visitors whilst on site, as well as verification of students for exam entry.

Acting as a form of security and when linked into an access control system provides ease of movement, but in a secure environment for student, staff and visitors alike. ID cards therefore need to be clear, concise and difficult for fraudsters to copy. ID cards from Payne Security meet these criteria.

Payne Security, with their many years of experience and maintaining a close liaison with this industry sector understands how important ID cards are, but we also know the other benefits which can be gained.

Benefits include; identification, illustrate helpline numbers, access control, retail discounts, vending and many more.

The ID card using one of the various current card technologies creates a card that can assist the student throughout their attendance.

Payne Security can offer complete ID card solutions that suit all your needs. Should you wish to issue cards yourself, we can provide our sophisticated **IDPro7 software** and **ID card printers** to streamline this process for you.

Alternatively, take full advantage of our **card production** and **fulfilment facility** and let Payne Security take the hassle out of the collation of data and issuing your ID cards, an invaluable service for annual registration. Saving you staff time, money and resources, giving you them to use and spend elsewhere.

Or as many of our customers are changing to, **"mix and match"**, let Payne Security manage the bulk card mailings and you manage the smaller ongoing card issuing.

At Payne Security we are dedicated to providing you the most cost effective and efficient use of your resources and budgets.

Payne Security offers:

- Highly personalised photo ID cards
- Secure print features to your ID cards
- A more secure and durable card
- Fulfilment services - card mailed direct
- Bulk card management - taking the hassle out of registration days
- IDPro7 photo ID card production software
- Card printers for onsite issuance
- Card accessories

With ever demanding service levels and technology improvements, ID cards can help improve your systems, services and procedures. By making use of the various card technologies and new solutions now available, the ID card can become a multifunctional tool providing your students, staff and visitors numerous benefits.
